

An Adventure in the Milky Way

IMOA - 1544

The Spaces fill the building as the stars in the galaxy. The spaces of the Astronomy Museum are divided into commercial and exhibition areas. The planetarium is a flight to the virtual universe (screens with an online sky viewer) by an UFO through the wormhole. The Planet Explorer for kids provides a sensation of being on a planet and a screen that educates kids showing animated scenes of the sky. The Pulsar Turret is accessed by a lift or the spiral ramp through the exhibition walls in between. Some Astronomic Instruments are placed between the internal spaces.

- LEGEND:**
- 1 - Information Room
 - 2 - Restaurant
 - 3 - Specialized Store
 - 4 - Solar System Exhibit.
 - 5 - Spiral Ramp
 - 6 - Lift
 - 7 - UFO (Planetarium)
 - 8 - Observation Deck
 - 9 - Staging Area for Excursions
 - 10 - Toilets
 - 11 - Planet Explorer for Kids
 - 12 - Outdoor Telescopes
