Hasib Sarowar

Master's Candidate

To,

Jeronimo van Schendel

Director of the Master in Business for Architecture and Design

María de Molina, 15. 28006 Madrid

Dear Sir,

My name is Hasib Sarowar. I have completed B.Arch. in Architecture from Khulna University. This is my passion to get further education in the field of architecture and I am the person who believe business and design will be able to work together stronger. I intend to get this scholarship to prove myself in the field of this research. I have a lot of potentials that need to be recognized by a reputed institute. I have been a student of the architecture. I have shown a distinction during my previous educational career.

I aspire to get this scholarship so that I can explore new realities and facts in future as well as how business can motivate to develop the design, build environment, Leadership, innovation. This scholarship is significant for my future career as it will lead to continuing my research work having broader exposure in this field. I had been part of different researches project. I attend different types of architectural and design competition during my educational background. My supervisors had always been satisfied with my performance. My supervisors had always been satisfied with my performance. Importantly, my B.Arch. thesis had been awarded by Delhi Architectural Festival in 2016 and I got second award in residential category as well another research project "Soul of Abode" had been occupied fourth position by Institute for Advanced Architecture of Catalonia (IAAC), Barcelona, 2020.

I had been working for more than four years. This scholarship will probably provide an opportunity to add new possibilities by reaping the benefits of further studies at a reputed institute. If I get this scholarship, it will help me develop my research qualities and in this case I will be able to make positive changes in this field. This scholarship will open new doors for me to get new experiences how the business and design work together. I see my future as a researcher. My purpose in getting this scholarship is to meet with new researchers whose work has succeeded in this field.

My intention is to learn new things. I intend to get benefit from experienced researchers. If this scholarship is awarded to me, the chances of my bright future in research become more likely. I am the best candidate for this scholarship as my work experience and educational background show my passion for this scholarship. I am a candidate you are looking for this scholarship.

My perseverance and motivation for work will inspire you to choose me. If you choose me for a scholarship, my research work will get support from this scholarship. I can continue my educational journey with great support. This scholarship will lead me towards the zenith of success in the field of research.

Thank you for considering my application

Yours Sincerely,

Hasib Sarowar
