

MOTIVATION LETTER

I completed the degree of Architect from the “Benemérita Universidad Autónoma de Puebla” in Mexico; and that is why I intend to continue growing in the field of Architecture mainly in design; And I am sure that by obtaining this one because I can prove my worth in the field of design and research; therefore, my skills and aptitudes in the area of architecture will be strengthened, contributing directly to the labor field.

Just as in the course of my university studies he showed a distinction, obtaining the degree of Architect by honorable mention thanks to the qualifications obtained, I am sure that the learning in his institution will be valuable for my performance.

I aspire to obtain this scholarship to be able to explore new realities and experiences that I am sure your institution will give me, obtaining new challenges and aspiring to find solutions facing the new architectural problems that we see ourselves facing in these times.

This is because it is important for my future career, as it will lead me to continue my research work with a broader exposure in this field. I am sure this is because it would provide the opportunity to take advantage of new perspectives by obtaining the benefits of a higher education at a reputable institute. I can make positive changes in this field if I get this one because it helped me develop my design and research qualities.

I am very motivated to submit my final individual project from my university; where they can observe the architectural design based on a guiding idea, focused on a real problem, finding a solution that is not only functional but also aesthetic.

Thanks to the passion I have for architectural design, I intend to continue learning and it would be an honor to be inside your facilities.
