

10.12.2020

Dear sir

I'm Deniz. I am sending my documents and my project from Istanbul Turkey. After completing my basic education, I received public relations and promotional training at Kocaeli University. Ever since I was little, I wanted to be an interior designer. For this reason, with the money I earned by working as a waitress, I attended a painting course and prepared for talent exams. I was awarded a scholarship with the talent exam I won at a private university (Istanbul Kultur University).

While I was attending my school, I took part in various jobs. These were different jobs such as cabin crew, waitress, butcher. I have always loved learning and discovering new things. At the same time, it took me a long time to finish school as I had to work. During this period, I worked with a carpenter to learn furniture manufacturing. I worked in architectural offices to improve my professional knowledge.

Finally, I was working in a company, but they took me on unpaid leave due to the pandemic. I haven't worked for seven months.

I got online education of your university on the Coursera website. Then came the news of this contest and it excited me. It is very important for me to improve myself and get valuable information from you. I'm a little bit far from academic career and inexperienced in exactly how to write a motivation letter. I wanted to convey my enthusiasm for learning by talking about myself and my educational background. I hope I will be one of the candidates for the scholarship.

Thank you and express my regards.

Deniz YILDIRIM
